

Providence

Maintenance & Electrical Services Ltd

MULTI-TRADE PROPERTY MAINTENANCE

...BY THE PEOPLE THAT CARE

BIG ENOUGH TO COPE..

Providence is a fast growing property maintenance and electrical company.

We specialise in installation, maintenance, development and refurbishment to both the domestic and commercial client.

We have developed good long term contacts within our trades, the majority being established contractors looking to outsource the more specialised elements of the industry to the smaller independent contractor.

We have secured a number of long term contracts in partnership with local councils, schools and colleges which are predominantly northern based.

Providence is a proactive and innovative company who are always looking to improve upon the services we offer our clients. We aim to offer each of our customers a high quality and tailor made service meeting both operational and financial requirements.

...SMALL ENOUGH TO CARE

Providence offers a complete service and maintenance commitment to our clients. We cover projects nationwide from our Sheffield based office.

We directly employ multi-skilled personnel who have experience in all disciplines of the building trade, with our specialised staff we can offer a complete solution.

Our commitment is to continually evolve alongside the ever changing market place. We aim to develop our range of services and keep up to date with legislative and environmental issues.

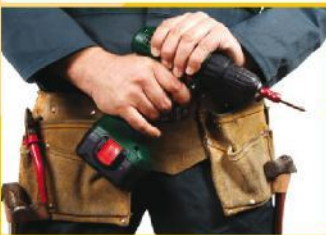

We strive to provide our clients with a cost effective, quality service with excellent customer care.

At Providence our overall objective is to be pro-active in our approach to client requirements and provide a level of service that satisfies all their needs.

Our philosophy is to provide all trades from just one call to one company.

We are able to complete all works within set time frames, including out of hours work, thus ensuring the smooth operation of our clients business.
